18/24

## CLAUDE LEVI-STAUSS

(1908-2009). French philosopher and anthropologist.

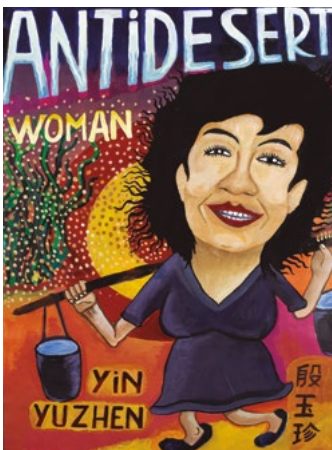

He points out that the so-called "savage cultures" conceal a depth as great, or even greater, than the Greco-Roman foundations of Western culture.

This is one of the 24 posters/pages (rural posters) created by Marcellí Antúnez Roca. Over the past few years, the artist has assembled a gallery of prominent eco-activist figures, whose legacy he seeks to honour.

19/24

## YIN YUZHEN

(1965). Woman who fights against the desert in China.

"The sandstorm in the Macwusa desert is filling the sky. I wish the green trees of the desert would keep me company. I kept a tree alive and it began to spread. I would like the land to be fertile and abundant."

This is one of the 24 posters/pages (rural posters) created by Marcellí Antúnez Roca. Over the past few years, the artist has assembled a gallery of prominent eco-activist figures, whose legacy he seeks to honour.

CAMPAMENT OVAL

24/24

## ERNST GOSTCH

(1948). Swiss geneticist and farmer.

He comes into contact with the millennia-old Indigenous agroforestry systems, buys a piece of land in Bahia, Brazil, left barren by fire and overgrazing, and turns it into a prodigious food forest to which wildlife and water return. He calls this method *syntropy*. Unlike entropy, which dissipates energy, this method concentrates energy, abundance and life.

This is one of the 24 posters/pages (rural posters) created by Marcellí Antúnez Roca. Over the past few years, the artist has assembled a gallery of prominent eco-activist figures, whose legacy he seeks to honour.
